December 2017

Dear Parent/Caregiver

WELLINGTON GIRLS' COLLEGE DONATIONS 2018

It's that time of the year when we ask you to invest in your daughter's future through making a valuable contribution by way of your Donation to the College. The money received from your Donation enables us to provide equipment and resources which are not covered by state funding but which, we believe, are vital to providing the level of education which you expect from Wellington Girls' College.

Please note that your Donations are tax deductible. The following is a breakdown of the Donation requested and the activities that it covers:

Total Donation requested

General Education Support	\$300 per student
Technology	\$210 per student
Development Fund	\$195 per family
Total	<u>\$705</u>

1 Student @ WGC -	\$ 705
2 Students @ WGC -	\$1215
3 Students @ WGC -	\$1725

1. General Education Support **\$300 per student**

Extra Curricular Activities

This donation helps pay for equipment, facilities hire, sport subsidy, music, drama, debating, public speaking, cultural activities, clubs and various student competitions, student leadership and student wellness. We encourage wide participation in these activities by partially subsidising them, but we also retain user pays content for individual costs e.g. individual sports or cultural activities.

A component of the donation meets the costs of materials provided by the College for personal use by students. Textbook repairs, photocopying, and some class resources, are examples of materials consumed.

2. Technology **\$210 per student**

Wellington Girls' College has a sophisticated intranet which enables girls to access College course materials and other regular communications from home. The benefit for each student is enormous, as many girls log-in each day to the same desktop they use at school to retrieve notes, work they have been doing at school and comment from their teachers. There is also access for parents through a parent portal. We wish to maintain and develop our Intranet and the opportunities it provides. We also provide a wide range

of ICT technologies for the girls to use as part of their normal programmes including a full wireless network which means girls can use their own ICT devices anywhere on site.

Wellington Girls' College continues to be at the leading edge of educational development in information and communication technologies. We wish to maintain and grow your daughter's opportunities to engage with technology at the forefront of these developments. Technology funding from the Ministry pays for about 10% of the total cost so the remainder is met from this donation and income derived from international students attending the College.

3. Development Fund

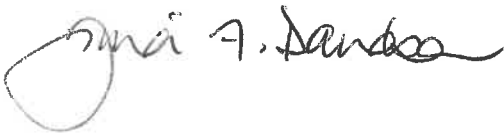

\$195 per family

The Development Fund, managed by the Board of Trustees, invites contributions towards capital projects that are not provided for by the Ministry of Education. In 2011 \$1.2m was contributed to the new Pipitea building. In 2013 the Development Fund contributed funds for the creation of an artificial turf. In 2014 it helped the school re-develop the quad and Brook courts; in 2015-2017 it has paid for the work developing our new signage and wayfinding.

The contributions paid by parents are essential to the College. Without your support, the College community's expectations of what will be provided cannot be met. Of course, any family who cannot meet full payment because of financial difficulties may write to me in confidence to request a reduction.

Please feel free to contact me, should you have any questions in relation to this letter.

Yours faithfully

A handwritten signature in black ink, appearing to read 'Julia Davidson', written in a cursive style.
